Technical Data Sheet

REV 01 of 27.11.2014

COLOUR TOUCH-UP

Gold, Silver, Ducat Gold

DESCRIPTION:

With COLOUR TOUCH-UP it is possible to take away quickly and safely all defects of lacquered woods. The retouched parts, with time are not subject to atmospheric deterioration keeping the original shade, even when treated with small amounts of product. COLOUR TOUCH-UP is applicable by spray and can be over-varnished. Available in the traditional colours of gilding: Gold 11, Silver 15, Ducat Gold 12.

PHYSICAL – CHEMICAL CHARACTERISTICS:

Appearance:	liquid at low viscosity
Colour:	conform to label
Odour:	typical of solvent
Solubility in water:	not soluble
Solubility in thinners:	complete in aromatic & acid, partially in alcohol and aliphatic
Dry residual:	33%
Yield:	8 m ² /Lt

HOW TO USE:

Dip the brush in the Touch-Up, then apply on the interested area and wait for the product to impregnate the wood. Smooth over with a cloth before it is fully dried. To clean the wood from smudges or drops lost during the operation, just use a damp cloth soaked in nitro thinner. If colours don't match perfectly with the surface, mixing of different shades is possible.

PACKAGE:

The product comes in bottles of 30ml.

STORAGE:

Containers must be closed tightly and left in a well ventilated place. Take careful measures against atmospheric and electrostatic charges.

WARNING:

Our data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs. We will ensure the continuity of the chemical-physical characteristics.
