FIXING LACQUER

DESCRIPTION:

Borma Wachs Fixing Lacquer it's a ready-to-use blend, formulated following the ancient traditions of the varnishing techniques. Made with natural pure shellac, and amber coloured. Thanks to the valuable natural essences, it allows protective treatments of great brilliancy and is the ideal solution to provide protection to imitation gold leaves and imitation silver leaves.

PHYSICAL – CHEMICAL CHARACTERISTICS:

Appearance:	liquid
Color:	amber
Odor:	sweetish
Active substance content:	32%
Solubility:	Shellac 99
Density:	0,819 Kg/1 +/- 0,03 (20° C)

HOW TO USE:

Apply thin layers of the product on a clean and dry surface using a brush or pad. Due to the high concentration of active substance, on difficult substrates it may be necessary to dilute the product with 10-20% of Borma Shellac 99, in order to ease the application.

Wait at least 1 or 2 hours between coats and make sure that previous coats are completely dry before further applications.

Usually after three applications, the wood will be pleasantly soft and shiny.

STORAGE:

Store in a cool, well ventilated place, keep the container closed when not in use. Keep away from heat, flames, sparks and other sources of ignition.

PACKAGING:

The product comes in 150 mL, 500 mL, 1Lt, 5Lt sized cans and in 400ml spray can.

WARNING:

Our data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs. We will ensure the continuity of the chemical-physical properties.
