ZAPON LACK

Special Varnish for Gilding

DESCRIPTION:

Glossy finishing varnish with a strong surface resistance, ideal for gilding. It is made with full respect of traditional methods. Single component and ready for use, application is extremely easy.

It gives to any treated object a pleasant aesthetic look. Exclusively for professional use.

CHEMICAL/PHYSICAL CHARACTERISTICS:

Form:	liquid
Colour:	colorless
Odour:	typical
Drying temperature:	> 10°C
Dilution:	nitro diluent
Yield:	8-10 m ²

HOW TO USE:

Shake well before use.

Apply one coat or more, by brush or by spray gun. After at least 4 hours from each application, to obtain a soft and even surface sand with abrasive paper grain 220. The suggested quantity of product for every single coat is between 80 and 130 g/m².

Total drying time: 24 hours.

STORAGE:

Store in a cool, well ventilated place, keep the container closed when not used. Keep away from heat, flames, sparks and other sources of ignition.

PACKAGING:

The product comes in 500 mL, Lt. 1, Lt. 5 and Lt. 25 sized cans.

WARNING:

Our technical sheets are compiled on the bases of results of our tests. Nevertheless our technical advice is given in good faith, but without a guarantee. Indeed different supports, conditions, applications, installations, dilutions are integrating parts of the final result and often beyond every control. The user must test the supplied products to verify if it is adaptable for his/her needs.

We can guarantee the continuity of the physical and chemical characteristics.
